FEMALE SEXUAL DYSFUNCTION

The 3rd European Female Sexual Dysfunction Conference

Friday 7th November 2008

Marriott Hotel, Regent's Park, London, NW3 3ST

Welcome to the 3rd European Female Sexual Dysfunction Conference sponsored by the British Society for Sexual Medicine. (BSSM)

The Scientific and Organising Committees of the BSSM are particularly aware that it is increasingly difficult for clinicians working with female sexual problems to keep up to date with advances in the science, art and clinical practice of this ever expanding field. Some international sexual dysfunction conferences may be long and expensive for the clinician. With these issues in mind, we have brought together the most recent data, presented by thought leaders in their field, offered at a reasonable price, staged in very pleasant surroundings – and all in one day. This event provides great educational value and an opportunity to meet international colleagues from all disciplines in lectures and informal workshops.
